

Ending Physician Burnout Global Summit

**Together we are making burnout
history.**

August 24–26, 2021 • Online • Register [Here](#)

30 ACHE Qualified Education Credits and
Category 1 CME Credits Available

Let's heal the healers. Another global pandemic threatens the future of our healthcare system. Before COVID rates of burnout among physicians was approaching 50%. Rates are continuing to rise, along with associated rising rates of anxiety, depression, PTSD, addiction, and suicide among doctors. Suicide rates among doctors are twice the rate of the general population.

For each doctor that begins to disengage from work, suffers the emotional toll of work on the front lines, or experiences ongoing moral injury countless nurses, team members, patients, and families are negatively impacted. Patient safety, care quality, and outcomes are all affected by physician burnout driving up the cost of care.

This Summit was born out of one physician's dream of preventing and ending the pandemic of burnout that has taken far too many lives. The curriculum was designed to meet the needs of physicians and other clinicians ready for a return to a sense of joy and meaningful pursuit of their calling, and also the needs of healthcare leaders – CEOs, CMOs, CHROs, Chief Wellness Officers, managers – working to reimagine a culture of care that nurtures the holistic well-being of all team members as the first necessary step to ensuring sustainable high-quality care for their communities.

Attendees will come away with **practical solutions, best practices, and best-in-class resources that can be implemented and iterated to accelerate the change** our systems of care desperately need.

More than 40 of the world's most influential and powerful speakers will provide over 30 hours of CME-enabled experiences in the form of keynotes, roundtable discussions, fireside chats, product demonstrations, and highly interactive experiential programs.

Sessions are live and interactive. Opportunities for real-time networking and community building are interwoven throughout. All registrants will have access to recordings of all sessions after the Summit.

The future of health care will require individual, cultural, and systemic transformation and unified committed action. We are all in. Are you up for the challenge?

As an independent chartered chapter of the San Diego Organization of Healthcare Leaders is authorized to award 30.0 hours of ACHE Qualified Education credit toward advancement or recertification in the American College of Healthcare Executives. Participants in this program who wish to have it considered for ACHE Qualified Education credit should list their attendance in their MyACHE when they apply to the American College of Healthcare Executives for advancement or recertification.
